

VARIETY 03

Parboiled (Sella) Rice

Steam-pressure processed for a firmer cooked texture and extended shelf stability — well suited to long export routes and bulk foodservice supply.

Technical Specification

Specification	Value
Average Grain Length (AGL)	7.0–8.2 mm (milled, variety-dependent)
Processing	Steam-pressure parboiled
Moisture content	Max 13.0%
Broken grain	Max 4.0%
Chalky grains	Max 1.0% (naturally reduced by parboiling)
Damaged / yellow grains	Max 0.5%
Admixture / purity	Min 99.0% (max 1.0% admixture)
Polishing type	Single / double polished, color sorted
Available packaging	1kg / 5kg stand-up pouch · 25kg / 50kg bulk PP / jute bag

Specification reflects standard export grade. Tighter tolerances available on request, subject to lot availability and price adjustment.

Documentation & Certification

Available on request per shipment: Certificate of Origin, Phytosanitary Certificate, Fumigation Certificate, Weight & Quality Certificate (SGS / third-party inspection), Halal Certificate, and Commercial Invoice / Packing List in buyer-specified format.

Minimum Order & Logistics

Standard export lot: 1 x 20ft / 40ft container (FCL). Retail packaging (1kg / 5kg) and bulk packaging (25kg / 50kg) available. Incoterms: FOB, CFR, or CIF on request. Private label / white-label packaging available — see white-label service page.
